Hello.

My name is _____. Thank you for the opportunity to speak with you. I work for the Statistics Department Montserrat, which is implementing the Montserrat Household Budgetary Survey - Survey of Living Conditions. This survey is being conducted throughout the nation to get a better understanding of the wellbeing and livelihoods of households like yours.

The survey includes questions about the household generally, and questions about individuals within your household, if applicable. The questions about the household and its characteristics will take about XX minutes to complete.

Your participation is entirely voluntary. If you agree to participate, you can choose to stop at any time or skip any questions you do not want to answer. Your answers will be completely confidential, only be used for statistical purposes and will not be used to determine if your household is eligible to receive any assistance from the government.

We will not share information that identifies you with anyone. We will remove all information such as your name that could link these responses to you before sharing with others for the sake of research. We will keep your personal information only until the research is completed.

Do you have any questions about the survey or what I have said? If in the future you have any questions regarding the survey or the interview, or concerns or complaints, we welcome you to contact Simmone Fenton or Jasmine Jno-Baptiste , by calling 664-491-3797 .

A1. Do you agree to participate in the survey?
