

## Clarification Questions and Responses

**Project Title: Tender for National Hospital Minor Works**

**Date: 28<sup>th</sup> March 2024**

<b>Clarification Question</b>	<b>Government of Montserrat (GoM) Response</b>
1. I notice some of the BoQ are asking for 7/8 Re-bar which we don't traditionally have on island. Can an alternative be used? Eg. 3/4" or 1"	If 7/8" bar is not available then the solution is to substitute with 1" bar.
2. Would there be a site meeting?	Prospective contractors are welcome to request a site meeting in advance of the due date.
3. Would the generator, incinerator and sprinkler be supplied by the client?	The generator and incinerator will be supplied by the client. Sprinklers are not part of the Minors works.
