

## Clarification Questions and Responses

**Project Title: Tender for the Supply of Emulsion for Road Works 23/2024**

**Date: 2<sup>nd</sup> February 2024**

<b>Clarification Question</b>	<b>Government of Montserrat (GoM) Response</b>
<p>1. The ITT requests 196 - 45 to 50-gallon drums.</p> <p>Could the equivalent volume be provided in Totes (275 gallons each, approx. 36 totes in total) 196 instead of drum? Totes are more economical and space saving, and are an internationally accepted vessel for the required emulsion.</p>	<p>Due to storage requirements drums were requested, however totes can be accepted. The vessel (i.e. totes, drums, etc.) holding the emulsion must become property of the Government of Montserrat.</p>
