

**Prior Information Notice (PIN)
for
Upcoming Tendering Opportunity
for the
Economic Development of Montserrat's Existing Geothermal Wells**

12th July, 2022

Montserrat is an internally self-governing Overseas Territory of the United Kingdom, located in the Leeward Islands in the Caribbean.

The Government of Montserrat will soon be inviting bids from suitably experienced tenderers for the following Service:

The Economic Development of Montserrat's Existing Geothermal Wells on a Build, Own, and Operate and Transfer (BOOT) Basis.

Montserrat currently has three (3) Geothermal Wellheads, at the sites of Mon 1, Mon 2, and Mon 3. The Well completion report for MON 1 and MON 2 indicates that each well is capable of sustaining up to 2MW of electricity generation, while MON 3 requires some remedial to allow energy production. The primary objective of this assignment develop these assets primarily through the installation of a geothermal power plant with a **minimum** capacity of 1.5 MW. To maximize the economic impact of these assets, respondent will be encouraged to propose economic and technological solutions which can augment the propose geothermal power plant. Electricity will be purchased through a Power Purchasing Agreement (PPA).

The aim is to award a contract by July 2023.

This procurement will be advertised through the e-sourcing portal myTenders (<https://www.mytenders.co.uk/>) and the Government of Montserrat (<https://tenders.gov.ms/>) websites in the month of August, 2022.

Interested prospective Bidders who would like to obtain additional information about this procurement opportunity, are invited to email the Head of the Procurement Department, Ms. Harjinder Jutle at Jutleh@gov.ms and copied to Procurement Officer I at fentonn@gov.ms
